Lower Global Warming Potential

To minimize environmental impacts, the HVAC industry is transitioning to lower Global Warming Potential (GWP) refrigerants. American Standard's newest lineup of equipment designs harnesses this next-generation technology to maximize your year-round comfort while innovating for a sustainable future. Talk to your local American Standard dealer to learn more about your best options.

MAXIMUM FLEXIBILITY PLUS LEGENDARY QUALITY

Within a single compact cabinet, American Standard® Heating & Air Conditioning's Gold and Silver packaged unit lineup is all about providing multiple options—along with reliable, efficient heating and cooling capabilities. Whether your home needs an air conditioner, heat pump, gas/electric or hybrid system, these units also offer the flexibility of ground or rooftop installation.

American Standard engineers its systems with innovative, high-quality components that are ultra-quiet, too. Two-stage Duration™ compressors offer excellent efficiency, while variable-speed Vortica™ blower motors distribute conditioned air and provide humidity control using our exclusive Comfort-R™ technology. All-aluminum Spine Fin™ coils blend efficient heat transfer with durability, while the All Weather™ tops protect internal components from the elements. Add it all up, and our packaged units combine day-to-day comfort with reliable long-haul performance.

AWARD-WINNING EXCELLENCE.

Top Tier Owner Satisfaction for Gas Furnaces

"National Product Testing and Research Magazine"

In 2019 and 2021 Summer Surveys of 36,348 gas furnaces, owned by members who purchased a new gas furnace [unit] between 2005 and 2021, American Standard gas furnaces were rated Top Tier in Owner Satisfaction.

Top Tier Owner Satisfaction for Heat Pumps

"National Product Testing and Research Magazine"

In 2019 and 2021 Summer Surveys of 13,458 heat pumps, owned by members who purchased a new heat pump [unit] between 2005 and 2021, American Standard heat pumps were rated Top Tier in Owner Satisfaction.

Top Tier Reliability for Heat Pumps

"National Product Testing and Research Magazine"

In 2019 and 2021 Summer Surveys of 13,458 heat pumps, owned by members who purchased a new heat pump [unit] between 2005 and 2021, American Standard heat pumps were rated Top Tier in Reliability.

Top Tier Owner Satisfaction for Central Air Conditioning

"National Product Testing and Research Magazine"

In a survey based on the proportion of members who are extremely likely to recommend their central air conditioning system to friends and family found American Standard Central Air Conditioning Systems' to be Top Tier in 2018 and 2020 Summer Surveys of 23,997 central air conditioning systems, owned by members who installed a new system between 2005-2020.

WE OBSESS OVER IT SO YOU DON'T.

For over a hundred years, we've made some of the most awarded, well-engineered heating and conditioning equipment, and earned a reputation for doing things ...right. And through it all, we've followed a pretty simple idea: "A Higher Standard" isn't just how we build our products. It's how we build our relationships with the customers who depend on us every single day.

A CLOSER LOOK

Gold 15 Packaged Heat Pump System

Durable All Weather Top

Resists the elements with rugged construction and a unique contoured shape.

High-Efficiency Ducted Fan

Aerodynamic blade and fan motor have the quietest performance on the market.

Duration™ Compressor

An industry leader - reliable, efficient, quiet. The two-stage operation decreases energy use, using higher speeds only for high-demand periods.

Variable-Speed Blower Motor with Comfort-R™

Eliminates hot and cold spots in your home with speeds that adjust to temperature demands, quiet operation and exclusive Comfort-R humidity control.

Composite Vortica™ Blower

Advanced design increases airflow while decreasing energy use and sound levels.

AccuClean™ Compatible

Select packaged unit systems are compatible with AccuClean: the first whole-home air-cleaning system to earn the **asthma & allergy friendly®** certification program mark from the Asthma and Allergy Foundation of America.

All-Aluminum Spine Fin™ Coil

Engineered for efficient airflow, exceptional resistance to corrosion and leaks, and outstanding reliability compared to standard coils.

Architectural Louvers

Stylish protection for internal parts with UV-resistant, automotive-grade plastic.

Refrigerant Detection System (RDS)

The included Mitigation Control Board (MCB) works in conjunction with the RDS on the drain pan to detect and mitigate refrigerant leaks.

Appliance-Grade Finish

Heavy rolled steel coated with highly resistant paint ensures a durably attractive appearance.

Advanced Electronic Demand Defrost (Heat Pumps Only)

Eliminates unnecessary defrost cycles, saving energy and prolonging the life of your compressor.

Features and components may vary by model and are shown for illustration purposes only.

¹ Registered Limited Warranty terms are available when you register within 60 days of installation. You can register online at americanstandardair.com or by phone at 855-260-2975, otherwise American Standard Heating & Air Conditioning's Base Limited Warranty terms will apply. Base Limited Warranty information on specific products can be found on americanstandardair.com. Ask your dealer for full warranty information at time of purchase. Warranties are for residential and multi-family use only, some exclusions may apply. Product Registration and Registration Transfer exclusions vary in the US from state to state and in Canada from province to province. To determine if there are specific exclusions for your state or province check your local laws.

COMFORTABLE. RELIABLE. EFFICIENT.

Optimize the comfort and efficiency of your home with the American Standard Home smart comfort system. The American Standard Home mobile app gives you remote access to your HVAC system through your connected American Standard smart thermostat. Adjust your temperature, set your schedule, and view your HVAC usage from anywhere.

American Standard Home connects to your American Standard HVAC system to provide you with remote control and diagnostics. To view additional integrations and subscriptions, visit our Knowledge Base at AmericanStandardAir.com/home-subscription.

WHY IS INDOOR AIR QUALITY IMPORTANT?

We spend 90% of our time indoors, and 70% of that is in our home¹ where the air can be up to 5X poorer quality than the air outside². So, AccuClean® utilizes patented technology to deliver cleaner air to the whole home by removing up to 99.98% of airborne particles³ that pass through the re-usable filter, including 99.9% of the Influenza A (H1N1) virus⁴. The AccuClean® Whole Home Air Cleaner, when used in accordance with manufacturer's directions, is effective at removing a surrogate for the virus that causes COVID-19. Effective removal rate based on independent testing results using MS-2 bacteriophage, a bacteria representative of virus-sized particles like SARS-CoV-2 that causes COVID-19. This level of filtration makes it up to 100X more effective than a standard 1" filter⁵.

Certified by the Asthma and Allergy Foundation of America.

With more than 65 million Americans suffering from asthma and allergies, this certification mark guides consumers in identifying products more suitable for people with asthma and allergies. The **asthma & allergy friendly**® Certification Mark is awarded only to those products that are scientifically proven to reduce exposure to asthma and allergy triggers.

American Standard AccuClean® is verified zero ozone producing so you can breathe easier knowing your air is free from harmful byproducts.⁶

¹ The National Human Activity Pattern Survey (2001)

² U.S. Environmental Protection Agency: EPA/600/6-87/002a. (1987)

³ Based on 3rd party testing of particle removal efficiency down to 0.3 microns (2005)

⁴ As reported by airmid healthgroup in ASCR092142v2 (2015)

⁵ Assuming <1% removal rate of 0.3 – 10 micron particles

⁶ Verified Zero Ozone per UL 2998, Intertek Certificate #: ZOZ-90113-2023a
