ZONING SYSTEMS

American Standard Link Zoning Controls

American Standard Link UX360 Smart Thermostat

Offers precise zone-by-zone control over temperature and humidity, which adds up to maximum whole-home comfort. American Standard's most advanced and quietest zoning technology includes an intelligent duct learning model that continuously learns where airflow is needed most.

American Standard Link SC360 System Controller

Works in conjunction with the American Standard Link system components to enable centralized decision making, self-configuration, improved accuracy, enhanced dehumidification, and enhanced maintenance and diagnostics of the HVAC system operation.

American Standard Link Zone Thermostat

Allows for monitoring and controlling each zone. The American Standard Link Zone Thermostat has a built-in temperature and humidity sensor that provides data to the system controller, and lets you monitor and control each zone using the color touchscreen display.

AccuLink Zoning Controls

AccuLink™ Platinum 1050 Smart Thermostat

Serves as the heart of your American Standard AccuLink zoning system. It's easily accessible from a smartphone, tablet, or computer, which makes adjusting the temperature or energy use for your family's comfort a breeze.

AccuLink™ Platinum 1040 Zoning Communicating Sensor with Display

Acts as both a sensor and a zone thermostat. The AccuLink™ Platinum 1040 provides temperature data to the smart thermostat while also allowing temperature adjustment of an individual zone. Perfect for a large room or combination of adjacent rooms.

Additional Zoning Controls

Wired Zone Sensors

Provide temperature data to the smart thermostat, allowing heated or cooled air to be directed where it's needed. The temperature in rooms with a wired zone sensor is adjusted using the smart thermostat. Ideal for a child's room or hallway.

Wireless Temperature and Humidity Sensors

Provides temperature and humidity data to the smart thermostat, with the additional flexibility of installing anywhere within the home. Each sensor is powered by two AAA batteries.

TOTAL CONTROL OF YOUR HOME'S COMFORT

American Standard® Heating & Air Conditioning AccuLink Zoning and Link Zoning systems, when installed with compatible equipment both use a network of controls, sensors, and motorized dampers to optimize temperature and humidity throughout your home. By delivering warm or cool air to the rooms that need it, these systems eliminate temperature fluctuations over the course of the day and maximize the consistency of comfort year-round. Plus, the American Standard Home app gives you the power to conveniently control each of the zones from the palm of your hand.

Which zoning system is right for you?

AWARD-WINNING EXCELLENCE.

Top Tier Owner Satisfaction for Gas Furnaces

A National Product Testing and Research Magazine

In 2019 and 2021 Summer Surveys of 36,348 gas furnaces, owned by members who purchased a new gas furnace [unit] between 2005 and 2021, American Standard gas furnaces were rated Top Tier in Owner Satisfaction.

Top Tier Owner Satisfaction for Heat Pumps

A National Product Testing and Research Magazine

In 2019 and 2021 Summer Surveys of 13,458 heat pumps, owned by members who purchased a new heat pump [unit] between 2005 and 2021, American Standard heat pumps were rated Top Tier in Owner Satisfaction.

Top Tier Reliability for Heat Pumps

A National Product Testing and Research Magazine

In 2019 and 2021 Summer Surveys of 13,458 heat pumps, owned by members who purchased a new heat pump [unit] between 2005 and 2021, American Standard heat pumps were rated Top Tier in Reliability.

Top Tier Owner Satisfaction for Central Air Conditioning

A National Product Testing and Research Magazine

In a survey based on the proportion of members who are extremely likely to recommend their central air conditioning system to friends and family found American Standard Central Air Conditioning Systems' to be Top Tier in 2018 and 2020 Summer Surveys of 23,997 central air conditioning systems, owned by members who installed a new system between 2005-2020.

WE OBSESS OVER IT SO YOU DON'T.

For over a hundred years, we've made some of the most awarded, well-engineered heating and air conditioning equipment, and earned a reputation for doing things ...right. And through it all, we've followed a pretty simple idea: A higher standard isn't just how we build our products. It's how we build our relationships with the customers who depend on us every single day.

UNDERSTANDING YOUR ZONING SYSTEM.

American Standard zoning systems help deliver the proper airflow to meet the temperatures you've set for each zone or room—for example, one zone can be set at 68 degrees, while another zone can be set at 72 degrees. Directing air on a zone-by-zone basis provides the ultimate in customized comfort, unlike conventional systems that can only heat or cool the entire house at once. Motorized modulating dampers can be installed within your new or existing ductwork to redirect conditioned air where it's needed, keeping temperatures and humidity levels consistent during every season.

HOW MOTORIZED MODULATING DAMPERS WORK

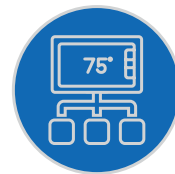

American Standard's exclusive motorized modulating dampers open and close inside your ductwork in partial increments, allowing you to fine-tune zoned areas for maximum comfort.

During the warm seasons, your American Standard matched zoning system uses an air conditioner or heat pump to cool the air and a variable-speed furnace or air handler to circulate it through your ductwork.

In winter, your American Standard matched zoning system uses a heat pump or variable-speed furnace to warm the air and an air handler or variable-speed furnace to move the warm air through the ductwork.

Precise Zone Control

American Standard controls with zoning capabilities make it easy to view and adjust temperature settings for each of your home's zones. Just toggle the left and right arrows.

Easy Scheduling

Save on energy use when no one's home with the guided scheduling program. You can set heating or cooling temperatures for every day of the week, with up to 4 periods each day.

Accurate Energy Management

By viewing the weekly and monthly history of your system's runtime, you can make energy-conscious decisions about your home's heating and cooling schedule.

A CLOSER LOOK

Precise zone-by-zone control over temperature and humidity.

American Standard Link SC360 System Controller

Works in conjunction with the American Standard Link system components

American Standard Link Zone Thermostat

Allows for monitoring and controlling each zone.

American Standard AccuLink Platinum 1050 Control

Serves as the hub of your zoning system.

American Standard AccuLink Zoning Communicating Sensor with Display

Functions as a thermostat and temperature sensor.

Wired Zone Sensor

Communicates temperature data to the Platinum 1050 Control.

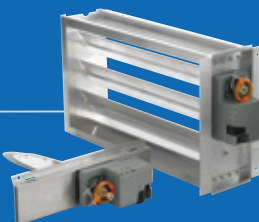

Wireless Temperature and Humidity Sensor

Communicates temperature and moisture levels to the system.

Motorized Modulating Dampers

Direct airflow where it's needed, installed within new or existing ductwork.

Understanding Motorized Modulating Dampers

American Standard's exclusive motorized modulating dampers open and close in partial increments within your ductwork—fine-tuning the control of airflow into specific zones.

THE CENTER OF HOME COMFORT

Elevate your environment and experience a new level of home comfort with an American Standard Smart Thermostat

SEAMLESS CONNECTIONS

American Standard's smart comfort systems are engineered to integrate effortlessly into a home and homeowners' daily lives. Easy to install, use and connect to American Standard systems or other smart devices, a smart HVAC system enables unparalleled convenience and control.

PROACTIVE DIAGNOSTICS

American Standard's smart diagnostics, enabled by any American Standard smart thermostat, allow dealers and technicians to predict and prevent issues before they arise. These proactive capabilities ease the maintenance process for homeowners, allowing them to focus on what matters to them most.

CUSTOM COMFORT

A connected HVAC system is the foundation of a comfortable home. American Standard's offerings are designed with each homeowner's unique lifestyle in mind, prioritizing flexibility and personalization so they can enjoy home comfort on their terms.

WE OBSESS OVER IT. SO YOU DON'T.

Home™

COMFORTABLE.
RELIABLE. EFFICIENT.

Optimize the comfort and efficiency of your home with the American Standard Home smart comfort system. The American Standard Home mobile app gives you remote access to your HVAC system through your connected American Standard smart thermostat.
